## Fireworks Safety Tips

As we get ready to ring in the New Year, fireworks are a favorite tradition, but they also cause thousands of fires and injuries each holiday season. Celebrate safely with these New Year's Eve-specific tips:

- Know your local laws-NC does NOT allow fireworks that explode or are projected into the air
- ONLY ignite fireworks in a clear area away from buildings, trees and flammable materials
- NEVER try to relight fireworks that have not fully ignited.
- Have a water source ready such as a garden hose, bucket of water or fire extinguisher
